**To** Advisee Fall 2024 <adviseefall2024@asu.edu.om>

Dear Students,

Welcome to the new Fall semester 2024! I wish each of you a successful and rewarding term ahead. As your advisor, I'm here to support you, and I'm confident that with dedication and effort, this semester will be fruitful for everyone.

For those who are joining me as advisees this semester; I warmly welcome you! I look forward to working with you and helping you navigate your academic journey. Please feel free to reach out if you have any questions or need guidance.

To those who achieved distinction, Congratulations on your outstanding performance! You have shown great dedication, and I encourage you to keep up the hard work and continue striving for excellence.

For those who have removed probation, I commend you for your persistence and improvement. You've made great progress, and I urge you to keep building on this momentum.

To all other students, Whether you're making steady progress or still finding your way, remember that each semester is a chance to improve. I encourage you to push yourself further and take full advantage of the opportunities ahead.

For students still on probation, I understand it can be challenging, but don't lose heart. This semester offers a fresh start. Stay focused, and I encourage you to work hard toward removing probation by raising your GPA.

As we move into the semester, I advise you all to register for the maximum allowed credit hours. However, for those still on probation, **please take no more than 12 credit hours**. I strongly recommend retaking any courses where you received a grade of D or lower to help improve your GPA.

Additionally, starting from this semester, I will be maintaining a **hardcopy record for each advisee**. Each of you will have a dedicated timeslot for our meetings, and the key outcomes of each meeting will be recorded to ensure progress and accountability. This process will help both you and me track your development over time and work toward your goals effectively.

As always, I am here to guide you and offer support, so please don't hesitate to reach out if you need any help.

Best regards,  
Dr. Yasir

Advisor
