- Overall learning experience: _____					
Contribution of the course to your understanding of systemic bacteriology					✓
Engagement and intellectual stimulation provided by the course					✓

7. What aspects of the course did you find most valuable?

Dr. Einas she supports us and provides us with sufficient information to make us a distinguished staff. The doctor's assistant explains precise details of the work and gives us important advice so that we can deal with patients and staff in the hospital. I enjoy this course and learn a lot from it.
